Voting records are for the March annual town meeting. Prior to 2011, voting held on the second Tuesday in March was for the election of town officers and bond issues only while other financial issues were decided at the Saturday Town Meeting. From 2011 forward voting records are for the March election where all issues are decided by ballot.

Information gathered from Town Annual Reports where available. Where town population and/or total registered voter amounts were not available, prior year amounts were used.

Own records for some years break out votes cast between all voters present at election and absentee voters while others do not and only provide all votes cast.
