December 7, 2020

The meeting took place in the Londonderry High School Cafeteria, 295 Mammoth Rd, Londonderry, NH 03053.

Present: Chairman John Farrell; Vice Chairman Joe Green; Councilor Tom Dolan, Jim Butler and Deb Paul; Town Manager Kevin Smith; Assistant Town Manager Lisa Drabik; Executive Assistant Kirby Brown;

CALL TO ORDER

Chairman Farrell called the Town Council meeting to order. This was followed by the Pledge of Allegiance. This was followed by a moment of silence for Pearl Harbor Day, those who defended this country, and for those who serve us both here and abroad.

PUBLIC COMMENT

Alina Korsak, Melanson and Heath, gave the auditors presentation. See attached PowerPoint.

Councilor Paul asked what the limitations are. Korsak asked Councilor Paul if she was referring to the auditor’s opinion. Councilor Paul stated that she was referring to the Management Letter. Korsak stated that it is a disclaimer that there may be some deficiencies that the auditors may not be aware of. This is a financial statement audit. They don’t express an opinion on internal control. Councilor Paul stated that when you look at a department budget, they have personnel items and non-personnel items. The non-personnel items are not what they exactly are, at the end of the day though it is still in their budget. Korsak went over the legal level of control that the auditors have.

Chairman Farrell shared that there was a court ordered forensic audit in 2013. Farrell asked Korsak if they see a lot of forensic audits these days or are they usually court ordered? Korsak stated that they have seen a lot of things come out, they had a client last year that had major fraud, but they have not done much of forensic audits.
Councilor Paul asked if it was the same group of people every year who do the audits, are
the comfortable at it or are there fresh sets of eyes. Korsak stated that it has changed over
the years. The senior staff has been with her but the lower staff is new so here were some
fresh eyes. Councilor Paul stated that there are many different types of audits. Korsak stated
that this is the financial audit.

Town Manager Smith stated that thus year the town was good at replenishing the fund
balance that has been used each year and this year the FY was finished with a healthy
surplus. Smith reminded the Council that approximately $1M was put into the Assigned
Fund Balance, which is not the Unassigned Fund Balance in anticipation of a potential
abatement with Granite Ridge Energy. While we would have replenished the Fund
Balance, our Unassigned Fund Balance is less than it would have normally been.

Dan Bouchard, O’Connell Dr, stated that social media is attacking out Public Works
Department. Bouchard stated that the Public Works Department works very hard.
Bouchard thanked the Public Works guys and let the public know that they do a great job
and that people shouldn’t be a bashing them.

Police Chief Bill Hart let the Council know a project that the Police Department is working
on. Two weeks ago they had someone come in and go over body worn cameras for the
officers. Chief Hart stated that things are changing in the law enforcement community.
Chief Hart asked the Council if it was something they would consider to potentially put on
the Warrant for this year. Vice Chairman Green stated that he believes it is a good idea.
Jonathan Kipp stated that he is fully in favor of the cameras. Kipp asked about data storage.
Chief Hart stated that they have only looked at one provider so far and storage is included
in the cost. Councilor Paul asked what other towns are doing this. Chief Hart stated that
there are quite a number of other communities doing it. Chief Hart stated that it is never
going to be cheaper than it is today. Police Captains Kim Bernard, Patrick Cheetham, and
Chris Gandia shared their thoughts with the Council and stated that they are all in favor of
the cameras. Town Manager Smith stated that cameras can also be used for the officers
own protection and safety as well. Chief Hart stated that they have GPS’s on them.
PUBLIC HEARING

Motion to open Public Hearing made by Councilor Dolan and second by Councilor Butler. Chair votes 5-0-0.

Chairman Farrell introduced Resolution #2020-19, which is a Resolution relative to the acceptance of unanticipated revenue under RSA 31:95-b which authorizes the Town Manager to sign all documents related to the grant. Finance Director Justin Campo stated that it is for a Grant the town is receiving from the New Hampshire Department of Safety for $12,500.25. For the purpose of updating the towns Hazard Mitigation Plan. There is a match requirement of $4,166.75. If the project should exceed $16,667.00, the town would be responsible for the difference. No questions from the public or Council. Motion to accept Resolution #2020-19 made by Vice Chairman Green and second by Councilor Paul. Chair votes 5-0-0.

Chairman Farrell opened up the budget public hearing. There are three members of the Budget Committee who are present via phone; Paul Skudlarek, Christine Patton and Kirsten Hildonen. Each member introduced themselves on the phone. All were absent due to Covid health concerns.

Finance Director Campo went over handouts about tax rate calculations and the Pennichuck water cost. Chairman Farrell asked the Council for a consensus to consult with the legal team to see what kind of legal action that can be taken for what the town can and cannot do to challenge the Pennichuck issue. Councilor Paul asked how many hydrants were in town. Campo stated that these are the bills the town has paid to Pennichuck for hydrants. There are 201 hydrants.

Finance Director Campo presented the draft warrants. Smith stated that there are some warrants that are not on the list that are still in discussion.

Steve Cotton presented Expendable Maintenance Trust fund PowerPoint (see attachment) since it is one item that failed on the ballot last year. Councilor Paul asked if every single dollar is spent. Councilor Paul asked Cotton is the $163K that’s in the account now would cover the cost of the items listed in the back. Councilor Paul asked if he is short $180K.
Cotton stated yes. Councilor Paul stated that the cost for all of the repairs listed is very high. Chairman Farrell went through each item and the cost. Councilor Paul asked Cotton what the top five projects that need to get done are. Cotton stated the Access Center, South Fire trim, Town Hall (2 projects), trim on Library. Cotton stated South Fire should be immediately. With all of those projects added up, Councilor Paul asked if it can all be done with the money already in the account. Cotton stated yes, with the exception that he also has to do winter maintenance, which has been running upwards of $48K. Councilor Paul asked if the DPW department does it. Cotton stated in 2012 there was an agreement to have the school district do a split. It fell through, and the Highway Department plows highways. So now they have to find contractors to come in. There are the Fire Stations, the Police Station, Town Hall, Library, etc. Councilor Paul stated that she would like to see what the year to year cost is. Cotton stated that all of the costs are listed in the PowerPoint.

Councilor Dolan stated that these items and buildings need to be maintained because if they aren’t maintained they can break and it could end up costing more money in the end. Not maintaining the facilities is not protecting the taxpayer, it is deceiving the taxpayer, letting them believe these buildings maintain themselves. Councilor Butler stated that Cotton has done a great job managing everything.

Councilor Paul stated that there are things that the town paid a lot of money for and then failed within a year or two. Councilor Paul stated that as far as the audit, the auditing company doesn’t look at our purchasing policy, they look at our financials and our financials only. Councilor Paul stated that she thinks there are some issues with the purchasing policy. Town Manager Smith stated that that is not true. The auditors do look at the purchasing policy and they do make sure the town is in compliance. They do spot checks of various purchases.

Ray Breslin, 3 Gary Drive, stated that we need to start educating the public more. Councilor Dolan stated that he hopes all of the newspapers can editorialize how important it is to support the Expendable Maintenance Trust Fund to avoid larger costs down the road.

Amy Kizak, GIS Manager, gave a presentation on the GIS system. See attachment. Town Manager Smith stated that the GIS update is another item that failed last year so we would like to educate the public on it a bit more now. Town Manager Smith stated that the maps are better than google maps. Councilor Paul asked for a breakdown of how the $28K would
be appropriated and is it a one-time thing. Kizak stated that the $28K goes into a fund and every five years there is a flyover of the town to get new imagery. The cost of the imagery is $75k-$100K to do the full flyover and get everything that’s needed. The $28K breaks down to every year.

The Council went down the warrant articles.

Ray Breslin, 3 Gary Drive, ask in regards to the towns vehicle maintenance, he wonders what condition most of the DPW vehicles are in. Breslin stated that it looks like DPW does a good job maintaining them. Finance Director Campo stated that the issues the vehicles are having is underneath.

Town Manager Smith presented two items not on the warrant yet that don’t have dollar amounts yet but he wanted to bring to the Councils attention. One of the two articles discussed previously will be on the warrant. One is the Conservation Commission has been in negotiations with Andy Mack Sr. to purchase the property that is across from Matthew Thornton School, 28 acres, the town purchasing 5 acres of it and the Conservation Commission purchasing the other 23 acres. It’s close to having a PNS. It will be brought to the Council for a vote once it does. Item two is that we are also in negotiation with Pennichuck Water, the Apple Tree Mall and the neighborhood behind to bring municipal water to that area as that area was effected by PFOA’s.

Motion to close the Public Hearing made by Councilor Dolan and second by Vice Chairman Green. Chair votes 5-0-0.

NEW BUSINESS

Chairman Farrell introduced Resolution #2020-20, a Resolution relative to creating a Committee to update the 2016 Hazard Mitigation Plan. Town Planner Colleen Mailloux presented. Mailloux stated that this is required to be updated every five years. The last time it was updated, SNHPC took the contract to update it. We are updating it internally this time in the Planning Department, working closely with the other departments in town. Motion to approve Resolution #2020-20 made by Vice Chairman Green and second by Councilor Paul. Chair votes 5-0-0.
Chairman Farrell introduced Order #2020-17, an order relative to the expenditure of maintenance trust Fund for various projects. Fire Chief Darren O’Brien presented. Lt. Hallowell presented the gear they are looking to purchase. Motion to approve Order #2020-17 made by Vice Chairman Green and second by Councilor Butler. Chair votes 4-0-0.

Expendable Maintenance Trust Fund

- The Expendable Maintenance Trust Fund warrant article was approved by the voters at the March 15, 2003 town meeting.

- Description of approved EMTF warrant article no. 5

To see if the Town will vote to create an expandable general trust fund under the provisions of RSA 31:19-a to be known as the Maintenance Trust Fund for the purpose of repairing and maintaining town facilities to raise and appropriate the sum of ONE HUNDRED THIRTY SEVEN THOUSAND FIVE HUNDRED DOLLARS ($137,500) for this purpose and to authorize the Town Council as agents to expend. This shall be a non-lapsing fund.

- FY2022 EMTF warrant article current request is $180K.
Expendable Maintenance Trust Fund

- What are **some examples** of the types of expenses that EMTF covers?
  - Heating and cooling system replacement/repairs
  - Roof replacement and repairs
  - Exterior trim and siding replacement or repairs
  - Electrical and plumbing repairs and upgrades
  - Fire protection systems “Fire Alarms, Wet/Dry Sprinkler, Radio Boxes”
  - Other building mechanicals “elevators, security systems, vaults”
  - Winter maintenance of parking lots, sidewalks, fire lanes at Town Hall, LPD, Library, Access Center, Central Fire, Senior Center.
