While the COVID virus has forced us to forego the annual Musquash Field Day cookout, we aren’t going to let that stop us from enjoying some winter fun on the trails. Three winter hikes are planned beginning at 10:00 am.

**Hike #1 at the Kendall Pond Conservation Area.** This is a low impact hike along Beaver Brook on a nice wide trail, approximately 1.5 miles total. A return loop option is available at the half-way point.

**Hike #2 will begin at the Faucher Road entrance to the Musquash.** This hike will be approximately 3 miles along the White Trail, Blue Trail passing by Dunstable Rock, Betty Mack Trail and the Ravine Trail involving some terrain and narrow trails. Beavers and the Rabbit Habitat will be discussed.

**Hike #3 will begin at the Preserve Drive entrance to the Musquash.** The hike will be approximately 1.75 miles along the Mathes Trail and Heron Trail, to the Heron Rookery to learn a little about the herons that nest there. The trails are wide and average difficulty.

Each hike will be limited to 20 participants in order to comply with social distancing. Registration is required in order to reserve your spot. On-line registration is available at [https://rb.gy/cejrbs](https://rb.gy/cejrbs) or call Marge at 770-4690.

**Dress warm (traction gear if it’s icy and snowshoes if we’ve had big snow) Bring water and snacks and let’s have some winter FUN!**
